CAUTIONARY STATEMENT ON FORWARD-LOOKING INFORMATION

This Quarterly Report on Form 10-Q (this “Report”) contains “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Forward-looking statements discuss matters that are not historical facts. Because they discuss future events or conditions, forward-looking statements may include words such as “anticipate,” “believe,” “estimate,” “intend,” “could,” “should,” “would,” “may,” “seek,” “plan,” “might,” “will,” “expect,” “anticipate,” “predict,” “project,” “forecast,” “potential,” “continue” negatives thereof or similar expressions. Forward-looking statements speak only as of the date they are made, are based on various underlying assumptions and current expectations about the future and are not guarantees. Such statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, level of activity, performance or achievement to be materially different from the results of operations or plans expressed or implied by such forward-looking statements.

We cannot predict all of the risks and uncertainties. Accordingly, such information should not be regarded as representations that the results or conditions described in such statements or that our objectives and plans will be achieved and we do not assume any responsibility for the accuracy or completeness of any of these forward-looking statements. These forward-looking statements are found at various places throughout this Quarterly Report on Form 10-Q and include information concerning possible or assumed future results of our operations, including statements about potential acquisition or merger targets; business strategies; future cash flows; financing plans; plans and objectives of management; any other statements regarding future acquisitions, future cash needs, future operations, business plans and future financial results, and any other statements that are not historical facts.

These forward-looking statements represent our intentions, plans, expectations, assumptions and beliefs about future events and are subject to risks, uncertainties and other factors. Many of those factors are outside of our control and could cause actual results to differ materially from the results expressed or implied by those forward-looking statements. In light of these risks, uncertainties and assumptions, the events described in the forward-looking statements might not occur or might occur to a different extent or at a different time than we have described. You are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of the Quarterly Report on Form 10-Q. All subsequent written and oral forward-looking statements concerning other matters addressed in this Quarterly Report on Form 10-Q and attributable to us or any person acting on our behalf are expressly qualified in their entirety by the cautionary statements contained or referred to in this Quarterly Report on Form 10-Q.

Except to the extent required by law, we undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events, a change in events, conditions, circumstances or assumptions underlying such statements, or otherwise.

1. Nature of Business and Basis of Presentation

Priced In Corp. (the "Company") was incorporated in the state of Nevada on November 23, 2010. The Company has been in the exploration stage since its formation and has not commenced business operations.

The accompanying unaudited interim financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission, and should be read in conjunction with the audited financial statements and notes thereto contained in the Company's most recent Annual Financial Statements filed with the SEC on Form 10K. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim period presented have been reflected herein. The results of operations for the interim period are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements which would substantially duplicate the disclosures contained in the audited financial statements for the most recent fiscal period, as reported in the Form 10K, have been omitted.

2. Going Concern

These financial statements have been prepared on a going concern basis, which implies the Company will continue to realize its assets and discharge its liabilities in the normal course of business. During the period ended December 30, 2013, the Company has an accumulated deficit of \$59,623. The Company is in the business of developing a website that will aggregate group buying offers from Groupon, Social Living and other sites. The continuation of the Company as a going concern is dependent upon the continued financial support from its shareholders, the ability of the Company to obtain necessary equity financing to continue operations, and the attainment of profitable operations. These factors raise substantial doubt regarding the Company's ability to continue as a going concern. These financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

3. Related Party Transactions

- a) As at December 31, 2013, the Company was indebted to the former President of the Company in the amount of \$6, which is non-interest bearing, unsecured, and due on demand.

4. Common Stock

- a) During the Quarter, the Company issued 3,250,000 common shares at \$0.01 per share for proceeds of \$32,500.
- b) On November 22, 2013, the Company issued 500,000 common shares at \$0.01 per share for proceeds of \$5,000.
- c) On November 22, 2013, the Company refunded 1,000,000 common shares to its former President at \$0.01 per share for proceeds of \$10,000.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion provides information which management believes is relevant to an assessment and understanding of our results of operations and financial condition. The discussion should be read along with our financial statements and notes thereto contained elsewhere in this Quarterly Report on Form 10-Q. The following discussion and analysis contains forward-looking statements, which involve risks and uncertainties. Our actual results may differ significantly from the results, expectations and plans discussed in these forward-looking statements.

Overview

Priced In Corp. (“we,” “us,” “our” or the “Company”) was incorporated in the state of Nevada on November 23, 2010. We have been in the development stage since our formation and have not commenced business operations.

We plan to operate a website that aggregates group buying deals and allows users to view and link to available group buying deals in their area. We own the domain name pricedin.com, however the website at this address is not yet operational. We intend to develop a website that allows visitors to view group buying deals sorted by a number of categories including: city, deal category, deal name and price. We plan to generate revenue from referral commissions when users of our website purchase a deal linked to our website.

We qualify as an “emerging growth company” under the JOBS Act. As a result, we are permitted to, and intend to, rely on exemptions from certain disclosure requirements. For so long as we are an emerging growth company, we will not be required to:

- have an auditor report on our internal controls over financial reporting pursuant to Section 404(b) of the Sarbanes-Oxley Act;
- comply with any requirement that may be adopted by the Public Company Accounting Oversight Board regarding mandatory audit firm rotation or a supplement to the auditor’s report providing additional information about the audit and the financial statements (i.e., an auditor discussion and analysis);
- submit certain executive compensation matters to shareholder advisory votes, such as “say-on-pay” and “say-on-frequency;” and
- disclose certain executive compensation related items such as the correlation between executive compensation and performance and comparisons of the CEO’s compensation to median employee compensation.

In addition, Section 107 of the JOBS Act also provides that an emerging growth company can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. In other words, an emerging growth company can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We have elected to take advantage of the benefits of this extended transition period. Our financial statements may therefore not be comparable to those of companies that comply with such new or revised accounting standards.

We will remain an “emerging growth company” for up to five years, or until the earliest of (i) the last day of the first fiscal year in which our total annual gross revenues exceed \$1 billion, (ii) the date that we become a “large accelerated filer” as defined in Rule 12b-2 under the Securities Exchange Act of 1934, which would occur if the market value of our ordinary shares that is held by non-affiliates exceeds \$700 million as of the last business day of our most recently completed second fiscal quarter or (iii) the date on which we have issued more than \$1 billion in non-convertible debt during the preceding three year period.

We also qualify as a smaller reporting company under Rule 12b-2 of the Securities Exchange Act of 1934, as amended. Moreover, as a smaller reporting company and so long as we remain a smaller reporting company, we benefit from similar exemptions and exclusions as an emerging growth company. In the event that we cease to be an emerging growth company as a result of a lapse of the five year period, but continue to be a smaller reporting company, we would continue to be subject to similar exemptions available to emerging growth company until such time as we were no longer a smaller reporting company.

Plan of Operation

Over the 12 month period from the completion of our offering covered the registration statement on Form S-1 (File No. 333-184897) that was declared effective on April 5, 2013, if we have raised enough funds, we intend to design, launch and market our website. As of this Report, the offering has been closed and we have raised \$32,500 through the sale of an aggregate of 3,250,000 shares of our common stock.

Within 90 days of the completion of our offering, the Company intends to begin its hiring of website developers. We then plan to develop a specification list for features of the website.

We intend to solicit bids through various providers for the development of the website and back end software. We intend to review the various bids that we receive and select a developer within 90 days of completing this offering.

We do not know whether the software developer that we select will also offer front end graphic design services for the web interface or if we will choose to use the same firm to develop both aspects of the software because these aspects require different types of expertise. We may need to hire a separate web development and graphics design firm to complete the look and feel of the web interface. During the course of the software's development we will strive to optimize the site for registration in the search engines.

Based on our initial research, we believe that it will take between four and six months to develop the website. During the development of the software, we will plan our marketing strategy. If we sell 50% of the proposed offering, we will likely hire a part-time software development manager to maintain and develop our website. If we sell 75% of the proposed offering, we will likely hire a part-time website manager and a part-time strategic relations manager to manage relations with various group buy websites with whom our back end will interface as well as any advertising relationships we develop. If we sell the entire proposed offering, we will likely hire a full-time website development manager and a full-time strategic relations manager.

We plan to spend the remainder of the 12 months after this offering focusing on marketing our website. We plan to register our website in a large number of search engines, using various SEO techniques, and also purchase AdWords on Google.

If we are unable to complete any phase of our website development or marketing efforts because we do not have enough resources, we will have to cease our development and marketing operations until we raise money. We expect to be difficult to raise capital after failing in any phase of our software development plan. As such, if we cannot secure sufficient proceeds we may have to cease marketing our website which may negatively affect investors' investment.

Results of Operations

Comparison of the three months ended December 31, 2013 and 2012

We did not have any revenues from November 23, 2010 (inception) through December 31, 2013. We anticipate that we may incur operating losses in the foreseeable future.

Our operating expenses for the three months ended December 31, 2013 were \$16,177, compared to \$2,372 for the three months ended December 31, 2012. Our expenses from November 23, 2010 (inception) through December 31, 2013 were \$59,623, solely consisting of general and administrative expenses.

Our net loss from November 23, 2010 (inception) through December 31, 2013 was \$59,623. For the three months ended December 31, 2013 and 2012 our net loss was \$16,177 and \$2,372, respectively.

Capital Resources and Liquidity

As of December 31, 2013 we had \$29,423 in cash.

We estimate that we will be able to use the currently available capital resources to develop a first version of our planned website and fund our planned operations, including public company reporting costs, for the next twelve months. We believe we will be able to generate referral revenue within 120 days of the launch of our website. If we exhausted our currently available capital resources and do not generate sufficient revenue to support our planned operations, we will need to obtain additional financing. We are not certain that we will be able to obtain additional financing on favorable terms, if at all. If we need additional capital and cannot raise it on acceptable terms, we will have to cease our operations.

We do not anticipate researching any further products or services nor the purchase or sale of any significant equipment. We also do not expect any significant additions to the number of employees other than those noted above in the section titled Plan of Operation.

During the period ended December 31, 2013, the Company has an accumulated deficit of \$59,623. The continuation of the Company as a going concern is dependent upon the continued financial support from its shareholders, the ability of the Company to obtain necessary equity financing to continue operations, and the attainment of profitable operations. These factors raise substantial doubt regarding the Company's ability to continue as a going concern. These financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

Off-Balance Sheet Arrangements

The Company has no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect or change on the Company's financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors. The term "off-balance sheet arrangement" generally means any transaction, agreement or other contractual arrangement to which an entity unconsolidated with the Company is a party, under which the Company has (i) any obligation arising under a guarantee contract, derivative instrument or variable interest; or (ii) a retained or contingent interest in assets transferred to such entity or similar arrangement that serves as credit, liquidity or market risk support for such assets.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Smaller reporting companies are not required to provide the information required by this item.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Pursuant to Rule 13a-15(b) under the Securities Exchange Act, the Company carried out an evaluation, with the participation of the Company's management, including the Company's Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO") (the Company's principal financial and accounting officer), of the effectiveness of the Company's disclosure controls and procedures (as defined under Rule 13a-15(e) under the Exchange Act) as of the end of the period covered by this report. Based upon that evaluation, the Company's CEO and CFO concluded that the Company's disclosure controls and procedures were effective as of December 31, 2013 to ensure that information required to be disclosed by the Company in the reports that the Company files or submits under the Exchange Act, is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Company's management, including the Company's CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

No change in our system of internal control over financial reporting occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings.

From time to time, the Company may become involved in litigation relating to claims arising out of its operations in the normal course of business. We are not involved in any pending legal proceeding or litigation and, to the best of our knowledge, no governmental authority is contemplating any proceeding to which we are a party or to which any of our properties is subject, which would reasonably be likely to have a material adverse effect on the Company.

Item 1A. Risk Factors.

Smaller reporting companies are not required to provide the information required by this item.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

During the Quarter, the Company issued 3,250,000 shares of the Company's common stock, par value \$0.01 per share, for proceeds of \$32,500.

On November 22, 2013, the Company issued 500,000 shares of the Company's common stock, par value \$0.01 per share, for proceeds of \$5,000.

On November 22, 2013, the Company refunded 1,000,000 shares of the Company's common stock, par value \$0.01 per share, for proceeds of \$10,000.

The above issuances of shares are exempt from registration, pursuant to Section 4(2) of the Securities Act. These securities qualified for exemption under Section 4(2) of the Securities Act since the issuance securities by us did not involve a public offering. The offering was not a "public offering" as defined in Section 4(2) due to the insubstantial number of persons involved in the deal, size of the offering, manner of the offering and number of securities offered. We did not undertake an offering in which we sold a high number of securities to a high number of investors. In addition, these stockholders had the necessary investment intent as required by Section 4(2) since they agreed to and received share certificates bearing a legend stating that such securities are restricted pursuant to Rule 144 of the Securities Act. This restriction ensures that these securities would not be immediately redistributed into the market and therefore not be part of a "public offering." Based on an analysis of the above factors, we have met the requirements to qualify for exemption under Section 4(2) of the Securities Act for this transaction.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Mine Safety Disclosures.
