PART I

ITEM 1. BUSINESS

Business Development

Priced In Corp. was incorporated in the state of Nevada on November 23, 2010. We have been in the development stage since our formation and have not commenced business operations. Our principal business address is 6110 Coxswain Crescent, Toronto, ON Canada L5V-2Z8. Our telephone number is (418) 263-8112. Our United States and registered statutory office is located at 2360 Corporate Circle, Suite 400, Henderson, NV 89074-7722, telephone number (702) 866-2500. We have a September 30 fiscal year end.

Our business involves aggregating group buy offers onto our website so that users can search one website for multiple group buying deals in their city and/or receive email notifications for the type of deals in which they are interested. The sale of varying levels of the shares offered will affect the operations and activities contemplated below. After the completion of the offering, management will determine how to best allocate the proceeds received. However, the Company will not keep the proceeds of the offering in a separate account and may use the proceeds before the completion of the offering if management believes it is in the best interest of the Company.

We are a development-stage Company that plans to operate a website that aggregates and consolidates group buying deals and allows users to view and link to available group buying deals in their area from various group buying companies including Groupon and LivingSocial. We own the URL pricedin.com, which is not yet operational. In order for us to become operational, we will need to hire a web developer to build the website. We have not yet entered into discussion with any web developers for our proposed website.

Whether we are able to pay for the development of our website is contingent upon the success of this offering. We do not know how long it will take for the website to be operational, but we believe it will be at least a few months after we have secured the necessary funds and have hired a competent web developer.

Under our current plan, if and when our website is operational, visitors to our website will be able to view and search for deals in which they are interested instead of visiting multiple group buying websites. When a website visitor finds a deal they would like to purchase, they will be redirected to the group buying website where the deal is offered and they can subsequently purchase the deal. Once our website has been developed and is operational, it will be managed by our President, Ken-Muen Le and our Vice President, Sean Maguire, though they will probably need to hire third party service providers for technical assistance.

Our proposed website will be able to retrieve deal information from several group buying websites and stores this information so that a user can go to our website to view multiple deals in their city. This process is known as “spidering.” These deals can be searched and filtered by various criteria including city, deal name, category and price. Once search criteria are selected, a visitor can also decide to receive future notifications by email when new deals that meet the specified criteria are offered.

We plan to generate revenue through affiliate agreements with group buying websites and advertising placement on our website. Many group buying websites offer referral commissions whereby if another website sends a user to the site and that user subsequently makes a purchase, a commission is paid to the referring website.

In the future, we may also generate advertising revenue through Google's AdSense program. Google AdSense is an ad serving application run by Google Inc. Website owners can enroll in this program to enable text, image, and video advertisements on their websites. These advertisements are administered, sorted, and maintained by Google, and can generate revenue on either a per-click or per-impression basis. As usage of our website increases, we may seek targeted advertisements from other sources like online or traditional advertising agencies. Google AdSense advertising may be placed on the website when management decides that our website generates enough traffic to make the revenue those ads could generate worth the effort of managing them.

The Company competes with other similar websites on the Internet today, but aims to be more comprehensive by listing more group buying offers. Management believes that many group buying aggregators only offer a limited selection of the most popular group buying website deals. We believe that by offering more group deals than our competition and by integrating support for those companies to interface with the back end of our website to update their offerings in real time, our website will be a more attractive option for users.

In order to accomplish this, we intend to develop a sophisticated back end to our website that will allow it to support a large number of offers from many group buying websites. One of the key features we intend to develop is an application programming interface, commonly known as an API, which will allow companies that offer group buy deals to interface with our website in an automated fashion. This will allow their websites to connect with ours and update key information about the deals they offer automatically and in real time. End users of our website will then be able to see all the relevant information about the deal, including but not limited to: the location and type of deal, the price, the amount of time or units remaining, the provider offering the deal and any terms or limitations on the use of the product or service offered for sale.

Management believes that the ongoing development of our website will primarily be determined by the success of this offering, but also potentially through future financing opportunities. Management expects to have to invest in ongoing development, maintenance and expansion of the Company's website in order to remain competitive.

Priced In has no plans to change its business activities or to combine with another business and is not aware of any circumstances or events that might cause this plan to change.

The founder and original president, chief executive officer, chief financial officer, secretary, treasurer, and director of the Company was Georges Roy, who resigned from the Company on September 20, 2012, and was replaced in these roles by Ken-Muen Le, who had been appointed a director of the Company on September 19, 2012.

Market Opportunity

As the Internet continues to grow, management believes that there will be a significant number and variety of group buying deals available. Group buying websites have become popular in recent years and there is intense competition in the space and a large number of websites offering deals. We believe that this increased competition among group buying website will make the aggregation and sorting of these deals an important service to both consumers and the purveyors of group deals.

Marketing

We believe that our ability to convert visitors to our website into purchasers of various group buying deals, thus earning us commissions, will be due in large part to our ability to direct traffic to our website. A key aspect of generating traffic is a website's ranking in the major search engines, particularly Google. We intend to direct a significant portion of our marketing efforts on getting our website ranked as highly as possible in the major search engines. This may include various search engine optimization (SEO) techniques such as the use of meta tags throughout our website, internal linking to optimize the ability of search engines to "spider" our website and soliciting and/or purchasing back links, whereby other websites link to ours.

In addition to SEO strategies, we may purchase Google AdWords advertisements. AdWords offers pay-per-click (PPC) advertising, cost-per-thousand (CPM) advertising, and site-targeted advertising for text, banner, and rich-media ads. The AdWords program includes local, national, and international distribution. Advertisers select the words that should trigger their ads and the maximum amount they will pay per click or per thousand exposures.

Intellectual Property

We intend, in due course, subject to legal advice, to apply for trademark protection and/or copyright protection in the United States and other jurisdictions. In that regard, any summaries or reviews we write ourselves will be available for copyright protection. In addition, if we develop a logo, we may seek trademark protection for it.

We intend to aggressively assert our rights trademark and copyright laws to protect our intellectual property, including product technology, product research and concepts and recognized trademarks. These rights are protected through the acquisition of trademark registrations, the maintenance of copyrights, and, where appropriate, litigation against those who are, in our opinion, infringing these rights.

While there can be no assurance that registered trademarks and copyrights will protect our proprietary information, we intend to assert our intellectual property rights against any infringer. Although any assertion of our rights can result in a substantial cost to, and diversion of effort by, our Company, management believes that the protection of our intellectual property rights is a key component of our operating strategy.

Regulatory Matters

We are unaware of and do not anticipate having to expend significant resources to comply with any governmental regulations. We are subject to the laws and regulations of those jurisdictions which are generally applicable to business operations, such as business licensing requirements, income taxes and payroll taxes. In general, the development and operation of our business is not subject to special regulatory and/or supervisory requirements.

Employees and Employment Agreements

As of the date of this prospectus, the Company's employees include its President, Ken-Muen Le. Mr. Le is employed elsewhere and has the flexibility to work on Priced In up to 20 hours per week. He is prepared to devote more time to our operations as may be required and as our finances permit. He is not being paid at present by Priced In.

Currently, we have not entered into an employment agreement with our President, Ken-Muen Le. The Company presently does not have pension, health, annuity, insurance, stock options, profit sharing or similar benefit plans; however, the Company may adopt plans in the future. Management does not plan to hire additional employees at this time. Depending on the success of this offering we plan to retain website and software development staff initially on a contract basis. Our two officers and directors will be responsible for the initial management, sales and client relations functions. Once the Company launches its website, it may hire a full time website manager who would be responsible for both the website and the back end software. If we elect not to hire a full time software website manager we will retain a development firm that will also be able to provide ongoing development and management services.

The founder and original president, chief executive officer, chief financial officer, secretary, treasurer, and director of the Company was Georges Roy, who resigned from the Company on September 20, 2012, and was replaced in these roles by Ken-Muen Le, who had been appointed a director of the Company on September 19, 2012. Though Mr. Le has no experience with running a public company, the Company has retained competent counsel to assist in ensuring that it meets its reporting obligations.

Environmental Laws

We have not incurred and do not anticipate incurring any expenses associated with environmental laws.

ITEM 1A. RISK FACTORS

We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required to provide the information under this item.

ITEM 1B. UNRESOLVED STAFF COMMENTS

Not applicable.

ITEM 2. PROPERTIES

Our principal executive office is located at 6110 Coxswain Crescent, Toronto, ON Canada L5V-2Z8, and our telephone number is (418) 263-8112. We do not have a lease agreement for this property. This property is leased by our Chief Executive Officer, Ken-Muen Le, and he allows us to use the space at no cost to run the business.

ITEM 3. LEGAL PROCEEDINGS

From time to time, we may become involved in various lawsuits and legal proceedings, which arise, in the ordinary course of business. However, litigation is subject to inherent uncertainties, and an adverse result in these or other matters may arise from time to time that may harm our business. We are currently not aware of any such legal proceedings or claims that we believe will have a material adverse effect on our business, financial condition or operating results.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

PART II

ITEM 5. MARKET FOR THE REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS, AND ISSUER PURCHASES OF EQUITY SECURITIES

No Public Market for Common Stock

There is presently no public market for our shares of common stock. We anticipate applying for quoting of our common stock on the OTCBB upon the effectiveness of the registration statement of which this prospectus forms apart. However, we can provide no assurance that our shares of common stock will be quoted on the OTCBB or, if quoted, that a public market will materialize.

General

Our authorized capital stock consists of 75,000,000 shares of common stock, with a par value of \$0.001 per share. As of December 26, 2013, there were 7,750,000 shares of our common stock issued and outstanding.

Holders

As of the December 26, 2013, we had 32 stockholders of our common stock.

Voting Rights

Each share of common stock entitles the holder to one vote on all matters submitted to a vote of the stockholders including the election of directors. Except as otherwise required by law the holders of our common stock possess all voting power. According to our bylaws, in general, each director is to be elected by a majority of the votes cast with respect to the directors at any meeting of our stockholders for the election of directors at which a quorum is present. According to our bylaws, in general, the affirmative vote of a majority of the shares represented at the meeting and entitled to vote on any matter (which shares voting affirmatively also constitute at least a majority of the required quorum), except for the election of directors, is to be the act of our stockholders. Our bylaws provide that stockholders holding at least 10% of the shares entitled to vote, represented in person or by proxy, constitute a quorum at the meeting of our stockholders. Our bylaws also provide that any action which may be taken at any annual or special meeting of our stockholders may be taken without a meeting if authorized by the written consent of the stockholders holding at least a majority of the voting power.

Our articles of incorporation and bylaws do not provide for cumulative voting in the election of directors. Because the holders of our common stock do not have cumulative voting rights and directors are generally to be elected by a majority of the votes cast with respect to the directors at any meeting of our stockholders for the election of directors, holders of more than fifty percent, and in some cases less than 50%, of the issued and outstanding shares of our common stock can elect all of our directors.

Dividends

The holders of our common stock are entitled to receive the dividends as may be declared by our board of directors out of funds legally available for dividends. Our board of directors is not obligated to declare a dividend. Any future dividends will be subject to the discretion of our board of directors and will depend upon, among other things, future earnings, the operating and financial condition of our company, its capital requirements, general business conditions and other pertinent factors. We do not anticipate that dividends will be paid in the foreseeable future.

As of the date of this prospectus, we have not paid any dividends to shareholders. The declaration of any future dividend will be at the discretion of our board of directors and will depend upon our earnings, if any, our capital requirements and financial position, our general economic conditions, and other pertinent conditions. It is our present intention not to pay any dividends in the foreseeable future, but rather to reinvest earnings, if any, in our business operations.

Miscellaneous Rights and Provisions

In the event of our liquidation or dissolution, whether voluntary or involuntary, each share of our common stock is entitled to share ratably in any assets available for distribution to holders of our common stock after satisfaction of all liabilities.

Our common stock is not convertible or redeemable and has no pre-emptive, subscription or conversion rights. There are no conversions, redemption, sinking fund or similar provisions regarding our common stock. Our common stock, after the fixed consideration thereof has been paid or performed, are not subject to assessment, and the holders of our common stock are not individually liable for the debts and liabilities of our company.

Our bylaws provide that our board of directors may amend our bylaws by a majority vote of our board of directors including any bylaws adopted by our stockholders, but our stockholders may from time to time specify particular provisions of these bylaws, which must not be amended by our board of directors. Our current bylaws were adopted by our board of directors. Therefore, our board of directors can amend our bylaws to make changes to the provisions relating to the quorum requirement and votes requirements to the extent permitted by the Nevada Revised Statutes.

Anti-Takeover Provisions

Some features of the Nevada Revised Statutes, which are further described below, may have the effect of deterring third parties from making takeover bids for control of our company or may be used to hinder or delay a takeover bid. This would decrease the chance that our stockholders would realize a premium over market price for their shares of common stock as a result of a takeover bid. Our articles of incorporation and bylaws exempt our common stock from these provisions.

Acquisition of Controlling Interest

The Nevada Revised Statutes contain provisions governing acquisition of controlling interest of a Nevada corporation. These provisions provide generally that any person or entity that acquires certain percentage of the outstanding voting shares of a Nevada corporation may be denied voting rights with respect to the acquired shares, unless the holders of a majority of the voting power of the corporation, excluding shares as to which any of such acquiring person or entity, an officer or a director of the corporation, and an employee of the corporation exercises voting rights, elect to restore such voting rights in whole or in part. These provisions apply whenever a person or entity acquires shares that, but for the operation of these provisions, would bring voting power of such person or entity in the election of directors within any of the following three ranges:

- 20% or more but less than 33 1/3%;
- 33 1/3% or more but less than or equal to 50%; or
- more than 50%.

The stockholders or board of directors of a corporation may elect to exempt the stock of the corporation from these provisions through adoption of a provision to that effect in the articles of incorporation or bylaws of the corporation. Our articles of incorporation and bylaws exempt our common stock from these provisions.

Articles of Incorporation and Bylaws

There are no provisions in our articles of incorporation or our bylaws that would delay, defer or prevent a change in control of our company and that would operate only with respect to an extraordinary corporate transaction involving our company or any of our subsidiaries, such as merger, reorganization, tender offer, sale or transfer of substantially all of its assets, or liquidation.

Stock Transfer Agent

Our transfer agent is VStock Transfer, 77 Spruce Street, Suite 201 Cedarhurst, NY 11598 and its phone number is (212) 828-8436.

Securities Authorized for Issuance Under Equity Compensation Plans

As of the end of the fiscal year ended September 30, 2013, we do not have any compensation plan under which equity securities of the Company are authorized for issuance.

ITEM 6. SELECTED FINANCIAL DATA.

We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required to provide the information under this item.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion provides information which management believes is relevant to an assessment and understanding of our results of operations and financial condition. The discussion should be read along with our financial statements and notes thereto contained elsewhere in this Annual Report on Form 10-K. The following discussion and analysis contains forward-looking statements, which involve risks and uncertainties. Our actual results may differ significantly from the results, expectations and plans discussed in these forward-looking statements.

Overview

We plan to operate a website that aggregates group buying deals and allows users to view and link to available group buying deals in their area. We own the domain name pricedin.com, however the website at this address is not yet operational. We intend to develop a website that allows visitors to view group buying deals sorted by a number of categories including: city, deal category, deal name and price. We plan to generate revenue from referral commissions when users of our website purchase a deal linked to our website.

We qualify as an “emerging growth company” under the JOBS Act. As a result, we are permitted to, and intend to, rely on exemptions from certain disclosure requirements. For so long as we are an emerging growth company, we will not be required to:

- have an auditor report on our internal controls over financial reporting pursuant to Section 404(b) of the Sarbanes-Oxley Act;
- comply with any requirement that may be adopted by the Public Company Accounting Oversight Board regarding mandatory audit firm rotation or a supplement to the auditor’s report providing additional information about the audit and the financial statements (i.e., an auditor discussion and analysis);
- submit certain executive compensation matters to shareholder advisory votes, such as “say-on-pay” and “say-on-frequency;” and
- disclose certain executive compensation related items such as the correlation between executive compensation and performance and comparisons of the CEO’s compensation to median employee compensation.

In addition, Section 107 of the JOBS Act also provides that an emerging growth company can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. In other words, an emerging growth company can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We have elected to take advantage of the benefits of this extended transition period. Our financial statements may therefore not be comparable to those of companies that comply with such new or revised accounting standards.

We will remain an “emerging growth company” for up to five years, or until the earliest of (i) the last day of the first fiscal year in which our total annual gross revenues exceed \$1 billion, (ii) the date that we become a “large accelerated filer” as defined in Rule 12b-2 under the Securities Exchange Act of 1934, which would occur if the market value of our ordinary shares that is held by non-affiliates exceeds \$700 million as of the last business day of our most recently completed second fiscal quarter or (iii) the date on which we have issued more than \$1 billion in non-convertible debt during the preceding three year period.

We also qualify as a smaller reporting company under Rule 12b-2 of the Securities Exchange Act of 1934, as amended. Moreover, as a smaller reporting company and so long as we remain a smaller reporting company, we benefit from similar exemptions and exclusions as an emerging growth company. In the event that we cease to be an emerging growth company as a result of a lapse of the five year period, but continue to be a smaller reporting company, we would continue to be subject to similar exemptions available to emerging growth company until such time as we were no longer a smaller reporting company.

Plan of Operation

Over the 12 month period from the completion of our offering covered the registration statement on Form S-1 (File No. 333-184897) that was declared effective on April 5, 2013, if we have raised enough funds, we intend to design, launch and market our website. As of this report, the offering has been closed and we have raised \$32,500 through the sale of an aggregate of 3,250,000 shares of our common stock.

Within 90 days of the completion of our offering, the Company intends to begin its hiring of website developers. We then plan to develop a specification list for features of the website.

We intend to solicit bids through various providers for the development of the website and back end software. We intend to review the various bids that we receive and select a developer within 90 days of completing this offering.

We do not know whether the software developer that we select will also offer front end graphic design services for the web interface or if we will choose to use the same firm to develop both aspects of the software because these aspects require different types of expertise. We may need to hire a separate web development and graphics design firm to complete the look and feel of the web interface. During the course of the software’s development we will strive to optimize the site for registration in the search engines.

Based on our initial research, we believe that it will take between four and six months to develop the website. During the development of the software, we will plan our marketing strategy. If we sell 50% of the proposed offering, we will likely hire a part-time software development manager to maintain and develop our website. If we sell 75% of the proposed offering, we will likely hire a part-time website manager and a part-time strategic relations manager to manage relations with various group buy websites with whom our back end will interface as well as any advertising relationships we develop. If we sell the entire proposed offering, we will likely hire a full-time website development manager and a full-time strategic relations manager.

We plan to spend the remainder of the 12 months after this offering focusing on marketing our website. We plan to register our website in a large number of search engines, using various SEO techniques, and also purchase AdWords on Google.

If we are unable to complete any phase of our website development or marketing efforts because we do not have enough resources, we will have to cease our development and marketing operations until we raise money. We expect to be difficult to raise capital after failing in any phase of our software development plan. As such, if we cannot secure sufficient proceeds we may have to cease marketing our website which may negatively affect investors' investment.

Results of Operations

We did not have any revenues for the years ended September 30, 2013 and 2012 or from November 23, 2010 (inception) through September 30, 2013. We anticipate that we may incur operating losses in the foreseeable future.

Our operating expenses from November 23, 2010 (inception) through September 30, 2013 were \$43,446, solely consisting of general and administrative expenses. For the years ended September 30, 2013 and 2012 our operating expenses were \$33,018 and \$9,912, respectively.

Capital Resources and Liquidity

As of September 30, 2013 we had \$14,060 in cash.

We estimate that we will be able to use the currently available capital resources to develop a first version of our planned website and fund our planned operations, including public company reporting costs, for the next twelve months. We believe we will be able to generate referral revenue within 120 days of the launch of our website. If we exhausted our currently available capital resources and do not generate sufficient revenue to support our planned operations, we will need to obtain additional financing. We are not certain that we will be able to obtain additional financing on favorable terms, if at all. If we need additional capital and cannot raise it on acceptable terms, we will have to cease our operations.

We do not anticipate researching any further products or services nor the purchase or sale of any significant equipment. We also do not expect any significant additions to the number of employees other than those noted above in the section titled Plan of Operation.

These financial statements have been prepared on a going concern basis, which implies the Company will continue to realize its assets and discharge its liabilities in the normal course of business. During the period ended September 30, 2013, the Company has an accumulated deficit of \$43,446. The Company is in the business of developing a website that will aggregate group buying offers from Groupon, Social Living and other sites. The continuation of the Company as a going concern is dependent upon the continued financial support from its shareholders, the ability of the Company to obtain necessary equity financing to continue operations, and the attainment of profitable operations. These factors raise substantial doubt regarding the Company's ability to continue as a going concern. These financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

Off-Balance Sheet Arrangements

The Company has no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect or change on the Company's financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors. The term "off-balance sheet arrangement" generally means any transaction, agreement or other contractual arrangement to which an entity unconsolidated with the Company is a party, under which the Company has (i) any obligation arising under a guarantee contract, derivative instrument or variable interest; or (ii) a retained or contingent interest in assets transferred to such entity or similar arrangement that serves as credit, liquidity or market risk support for such assets.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

To the Board of Directors
Priced In Corp
(A Development Stage Company)
Canada L5V-2Z8

We have audited the accompanying balance sheets of Priced In Corp (a Development Stage Company) (the "Company") as of September 30, 2013 and September 30, 2012 and the related statements of expenses, stockholders' equity (deficit), and cash flows for the years then ended September 30, 2013, September 30, 2012 and the period from November 23, 2010 (inception) to September 30, 2013. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of September 30, 2013 and September 30, 2012 and the related results of its operations and its cash flows for the years then ended September 30, 2013, September 30, 2012 and the period from November 23, 2010 (inception) to September 30, 2013 in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. The Company has incurred losses from operation since inception. This factor raises substantial doubt about the Company's ability to continue as a going concern. Management's plans in regard to this matter are described in Note 1. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

1. Nature of Business and Going Concern

Priced In Corp. (the "Company") was incorporated in the state of Nevada on November 23, 2010. The Company has been in the development stage since its formation and has not commenced business operations. The Company complies with Statement of Financial Accounting Standard ASC 915-15 and the Securities and Exchange Commission Exchange Act 7 for its characterization of the Company as development stage.

These financial statements have been prepared on a going concern basis, which implies the Company will continue to realize its assets and discharge its liabilities in the normal course of business. During the period ended September 30, 2013, the Company has an accumulated deficit of \$43,446. The Company is in the business of developing a website that will aggregate group buying offers from Groupon, Social Living and other sites. The continuation of the Company as a going concern is dependent upon the continued financial support from its shareholders, the ability of the Company to obtain necessary equity financing to continue operations, and the attainment of profitable operations. These factors raise substantial doubt regarding the Company's ability to continue as a going concern. These financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

2. Summary of Significant Accounting Policies

a) Basis of Presentation

These financial statements and notes are presented in accordance with accounting principles generally accepted in the United States. The Company's fiscal year end is September 30.

b) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The Company regularly evaluates estimates and assumptions related to the recoverability of long-lived assets, donated expenses and deferred income tax asset valuation allowances. The Company bases its estimates and assumptions on current facts, historical experience and various other factors that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the accrual of costs and expenses that are not readily apparent from other sources. The actual results experienced by the Company may differ materially and adversely from the Company's estimates. To the extent there are material differences between the estimates and the actual results, future results of operations will be affected.

c) Cash and Cash Equivalents

The Company considers all highly liquid instruments with a maturity of three months or less at the time of issuance to be cash equivalents.

d) Financial Instruments

The fair values of financial instruments which include cash and amounts due to related parties were estimated to approximate their carrying values due to the immediate or relatively short maturity of these instruments.

The Company's operations and financing activities are conducted primarily in United States dollars, and as a result the Company is not subject to significant exposure to market risks from changes in foreign currency rates. Management has determined that the Company is not exposed to significant credit risk.

2. Summary of Significant Accounting Policies (continued)

e) Loss per Share

The Company computes net loss per share in accordance with ASC 740 "*Earnings per Share*". ASC 260 requires presentation of both basic and diluted earnings per share ("EPS") on the face of the income statement. Basic EPS is computed by dividing net income (loss) available to common shareholders by the weighted average number of common shares outstanding during the period. Diluted EPS gives effect to all dilutive potential common shares outstanding during the period including stock options, using the treasury stock method, and convertible preferred stock, using the if-converted method. In computing diluted EPS, the average stock price for the period is used in determining the number of shares assumed to be purchased from the exercise of stock options or warrants. Diluted EPS excludes all dilutive potential common shares if their effect is anti-dilutive.

f) Income Taxes

The Company accounts for income taxes using the asset and liability approach. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amounts expected to be realized

g) Recent Accounting Pronouncements

The Company adopted new accounting guidance on business combinations. This new accounting guidance broadens the scope of business combinations, extending its applicability to all transactions and other events in which one entity obtains control over one or more other businesses. It broadens the fair value measurement and recognition of assets acquired, liabilities assumed and interests transferred as a result of business combinations. It also expands on required disclosures to improve the statement users' abilities to evaluate the nature and financial effects of business combinations. The adoption of this guidance did not have a material impact on the Company's financial statements.

The Company does not expect the adoption of any other recently issued accounting pronouncements to have a significant effect on its financial statements.

3. Related Party Transactions

- a) As at September 30, 2013, the Company was indebted to the former President of the Company in the amount of \$6, which is non-interest bearing, unsecured, and due on demand.

4. Common Stock

- a) On November 24, 2011, the Company issued 4,000,000 common shares at \$0.01 per share for proceeds of \$40,000.
- b) On February 1, 2012, the Company issued 1,000,000 common shares at \$0.01 per share for proceeds of \$10,000.

5. Income Taxes

Potential benefits of income tax losses are not recognized in the accounts until realization is more likely than not. The Company has incurred a net operating loss of \$43,446 which will start to expire in 2032. The Company has adopted ASC 740, "Accounting for Income Taxes", as of its inception. Pursuant to ASC 740, the Company is required to compute tax asset benefits for non-capital losses carried forward. The potential benefit of the net operating loss has not been recognized in these financial statements because the Company cannot be assured it is more likely than not it will utilize the loss carried forward in future years.

At September 30, 2013 and 2012, deferred tax assets consisted of the following

	2013	2012
	\$	\$
Deferred tax assets	14,772	3,546
Less: valuation allowance	(14,772)	(3,546)
Provision for income taxes	-	-

6. Subsequent Events

On November 22, 2013, Sean Maguire resigned as a director. On February 1, 2012, the Company issued 1,000,000 common shares to this director at \$0.01 per share for proceeds of \$10,000. On November 22, 2013 the shares were returned to the Company and the proceeds were refunded to the director.

On November 22, 2013, the company appointed Natalia Kozioura as a new director. On November 22, 2013, the Company issued 500,000 shares to this director at \$0.01 per share for proceeds of \$5,000.

Subsequent to September 30, 2013 through the date of this filing, the Company issued 3,250,000 common shares to 32 subscribers at \$0.01 per share for total proceeds of \$32,500.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

Evaluation of disclosure controls and procedures

Pursuant to Rule 13a-15(b) under the Exchange Act, the Company carried out an evaluation, with the participation of the Company's management, including the Company's Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO") (the Company's principal financial and accounting officer), of the effectiveness of the Company's disclosure controls and procedures (as defined under Rule 13a-15(e) under the Exchange Act) as of the end of the period covered by this report. Based upon that evaluation, the Company's CEO and CFO concluded that the Company's disclosure controls and procedures are not effective to ensure that information required to be disclosed by the Company in the reports that the Company files or submits under the Exchange Act, is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Company's management, including the Company's CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure, due to the material weaknesses identified below.

- Lack of proper segregation of duties due to limited personnel
- Lack of a formal review process that includes multiple levels of review

It should be noted that any system of controls, however well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of the system are met. In addition, the design of any control system is based in part upon certain assumptions about the likelihood of future events. Because of these and other inherent limitations of control systems, there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

Report of Management on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as that term is defined in Rule 13a-15(f) under the Exchange Act. Under the supervision and with the participation of our management, including our principal executive and principal financial officer, we assessed, as of September 30, 2013, the effectiveness of our internal control over financial reporting. This assessment was based on criteria established in the framework in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on our assessment using those criteria, management concluded that our internal control over financial reporting as of September 30, 2013, was not effective.

Internal control over financial reporting is defined as a process designed by, or under the supervision of, our principal executive and principal financial officers and effected by our board of directors, management and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles, and includes those policies and procedures that:

- o pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets;
- o provide reasonable assurance that transactions are recorded as necessary to permit the preparation of financial statements in accordance with U.S. generally accepted accounting principles and that our receipts and expenditures are being made only in accordance with authorization of our management and directors; and
- o provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the financial statements.

A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the internal control system are met. Because of the inherent limitations of any internal control system, no evaluation of controls can provide absolute assurance that all control issues, if any, within a company have been detected.

This Annual Report on Form 10-K does not include an attestation report of the Company's independent registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's independent registered public accounting firm pursuant to rules of the Securities and Exchange Commission that permit the Company to provide only management's report in this Annual Report on Form 10-K.

We are in the continuous process of improving our internal control over financial reporting in an effort to eliminate these material weaknesses through improved supervision and training of our staff, but additional effort is needed to fully remedy these deficiencies. Management has engaged a Certified Public Accountant as a consultant to assist with the financial reporting process in an effort to mitigate some of the identified weaknesses. The Company is still in its development stage and intends on hiring the necessary staff to address the weaknesses once revenue has been realized.

This annual report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the Company to provide only management's report in this annual report.

Changes in Internal Controls

No change in our system of internal control over financial reporting occurred during the fourth quarter of the fiscal year ended September 30, 2013 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

ITEM 9B. OTHER INFORMATION

None.

Committees

We do not have a standing audit committee of the Board of Directors. Management has determined not to establish an audit committee at present because of our limited resources and limited operating activities do not warrant the formation of an audit committee or the expense of doing so. We do not have a financial expert serving on the Board of Directors or employed as an officer based on management's belief that the cost of obtaining the services of a person who meets the criteria for a financial expert under Item 401(e) of Regulation S-B is beyond its limited financial resources and the financial skills of such an expert are simply not required or necessary for us to maintain effective internal controls and procedures for financial reporting in light of the limited scope and simplicity of accounting issues raised in its financial statements at this stage of its development.

We have not formed a Compensation Committee or Nominating and Corporate Governance Committee as of the filing of this Annual Report.

ITEM 11. EXECUTIVE COMPENSATION

Compensation of Executive Officers and Directors
